Before applying :

Our Sticker Sheets are designed so they can be cut up and applied in many different ways. We may even cut them out ahead of time for you!

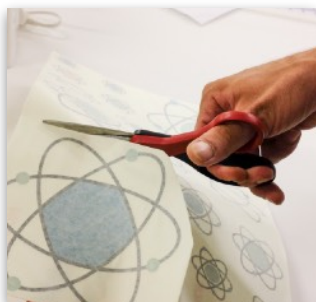

- Lay your graphic on a flat surface overnight to straighten out any curl that occurred in the shipping tube.
- Be sure to wipe the surface you are applying to with a dust cloth to remove any dust or dirt.

Sticker Application Instructions :

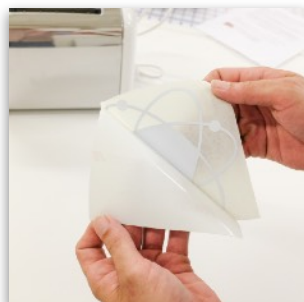

Our sticker sheets are easy - just peel and apply!

Vinyl stickers have an aggressive adhesive. We recommend using them on glass, metal, plastic, or any other flat surface where they won't need to be removed. We do not recommend putting them on painted walls or uneven surfaces.

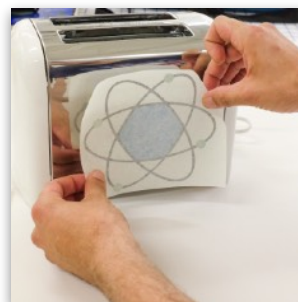

Stickers with intricate designs may come with a Mask Transfer Paper on the front of the stickers which makes them easier to apply. Simply follow the sequence below:

Cut out individual stickers, as close to the stickers as you can.

Remove the backing layer to expose the adhesive.

Place your sticker and rub in place to stick firmly to the surface.

Remove the transfer tape and you're all done!
